

Supplemental information

GRADE RECONFIGURATION

	Current Enrollment (Oct. 1, 2021)	Capacity	Expected Year to Reach Capacity
Elementary	3,285 (including preschool at .5)	3,678	2023
Middle	1,758	2,340	2029
High	2,509	2,010	2017

EXTENDED DAY/DOUBLE SESSIONS

Extended Day Elementary

Extending the day is a cost saving measure that allows a district to put more students in the same existing space by either (1) increasing class sizes or (2) utilizing class space for an extended period of time during the day.

Elementary school: Elementary school extended day is usually done for the purpose of increasing class size, so the capacity of the school increases. This is a 15% increase in class size (3-4 students per class).

Two tracks: Class size increase is very unpopular with parents and teachers due to the lack of personalizing and connection that takes place with larger class sizes. To give student more individualized time during a portion of the reading instruction, students are put on a morning track or afternoon track.

Example:

Morning Track	7:30-8:00 Early Track Bus Run	8:00-9:00 15 Students for Literacy	9:00-3:00 30 Students	3:00-3:30 School Ends Morning Track Bus Run	
Afternoon Track		8:30-9:00 Afternoon Track Bus Run	9:00-3:00 30 Students	3:00-4:00 15 Students for Literacy Instruction	4:00-4:30 School Ends Afternoon Track Bus Run

Teacher contract: To compensate teachers for the extended day, their salary is increased by 15% to compensate teachers for large class sizes and working an hour extra each day.

SCHOOL BOUNDARY ADJUSTMENTS

Elementary School Boundaries

School	Adjusted Capacity	Oct. 1 Enrollment 2021	2024 Projected Enrollment by Residence
Daniels Canyon	828	534	545
Heber Valley	772	540	683
J. R. Smith	704	633	716
Midway	546	637	674
Old Mill	828	775	1,055
Elementary Total	3,678	3,151	3,674
